**Don't just take our word for it,
this is what our customers say:**

“Our business operates in Northern Ireland and Republic of Ireland so choosing a provider that offers all-Ireland billing was important to us. The range of services is superb and any queries have been dealt with efficiently and most importantly locally.”

“UTV Connect promised huge cost savings and they certainly delivered. No minimum call charges or no call set up fees is a breath of fresh air. It's amazing the difference it's made to our bill.”

“We had been with our previous provider for years and weren't entirely happy with the service. The reason we didn't move sooner was the fear of complications and potential downtime. With UTV Connect it couldn't have been easier to switch. We got a great deal and the service is first class.”

“The most important factor for Interflora is reliability. We can't afford any downtime and need issues dealt with quickly. With UTV Connect, we are confident that if a problem does arise that it will be dealt with quickly. The technical support is second to none.”
